

# DAVID TYLDESLEY AND ASSOCIATES

PLANNING, LANDSCAPE AND ENVIRONMENTAL CONSULTANTS

**ANTHONY BROWN B.A.(Hons) T.P., M.A.L.D., M.L.I. – Associate**

## Summary CV

Anthony is a **Chartered Landscape Architect** having been elected a **Member of the Landscape Institute** in 1988. On leaving the John Leggot College, Scunthorpe, Anthony obtained an **honours degree in Town and Country Planning (Grade 2i)** from Leeds Polytechnic in 1982, and then successfully completed a **masters degree in Landscape Design** at the University of Sheffield in 1984.

During training he worked in the Scunthorpe Borough Council Parks and Recreation Department and on completion of the masters degree course had five years experience in local government working on a varied programme ranging from environmental improvement works to an 18th Century courtyard scheme for the Ryder-Cheshire Mission Hospice (with English Heritage and the National Trust) to responsibility for the landscape agreement for the Asfordby Mine, (with British Coal) to establish and maintain landscape treatment for the new colliery with a budget of £250,000.

Anthony joined DTA in 1989 and has been fully responsible for the Practice's landscape commissions since 1995. He has been the project landscape architect for the majority of the Practice's **landscape design and contract supervision** work for a wide range of project types including mineral, waste, housing, industrial, business park, university, tourism and recreational landscapes. Examples of the wide range of landscape projects for which Anthony has been responsible over the last few years include:

Linghall Quarry, Church Lawford, Warwickshire, sand and gravel quarry with landfill, environmental assessment, landscape design and contract supervision, for Ideal Aggregates plc and Leigh Environmental.

Frisby and Houghton Lodge, 500 and 400 cow Dairy Units, Leicestershire, landscape assessment, design and contract specifications for on-site and off-site landscape treatment, for Co-Operative Wholesale Society (Agriculture) Ltd

Landscape Design of the new Lakeside Arts Centre, University Boulevard, Nottingham, for the University of Nottingham

Nottingham Gateway Hotel, new hotel, Nottingham, landscape design and contract supervision for Havenwood Developments Ltd.

Hucknall Churchyard Restoration and Lord Byron Memorial Garden, design and contract specification, for Ashfield District Council, Nottinghamshire.

Historic Landscape Conservation Management Plan, in unique Victorian private housing estate, Nottingham, Conservation Area, Tree Preservation Orders, tree management programme, open space design and contract specification, for Nottingham Park Estate Ltd.

Planning and Landscape Design and appraisal of proposed major coalfield restoration and recreational scheme at Vicar Water, Rainworth for submission to Millenium Commission, for Newark and Sherwood District Council.

New landscaping scheme, habitat creation and nature walk, at new D90 East factory, Beeston, Nottingham, for Boots the Chemists Ltd.

Landscape master plans and detailed designs for a wide range of housing developments for a variety of regional and national home builders.

Landscape design and appraisal of proposed new golf course development, Warwickshire.

## **Anthony Brown – Summary CV (continued)**

Anthony has considerable experience of **landscape character assessment and landscape evaluation**, for example, Doncaster Borough for the Doncaster MBC (1994); Kinross-shire and Dunfermline areas for SNH (1995), St Andrews area (1996) and then the whole of Fife (1997-98) for SNH and the Fife Council, Rutland County (2003-4), Oadby and Wigston (2004-5) and North Kesteven (2007).

Anthony also has extensive experience of **landscape and visual impact assessment for statutory environmental statements and appraisals** for a wide variety of civil engineering projects and other developments including agricultural, industrial, residential, motorist services, water industry, mineral extraction, waste disposal and leisure / recreational uses. He has given evidence as expert witness at public inquiries and appeal hearings.
