ETHICAL AND SUSTAINABLE BUSINESS TRADING POLICY STATEMENT

- The Practice works within a self-imposed Code of Professional Ethics.
- The Practice operates a fair trading policy whereby we aim to pay our suppliers and sub-contractors regularly and promptly.
- The Practice also aims to buy '*FAIRTRADE*' goods (e.g. tea and coffee) where possible and appropriate.

Through an ethical trading philosophy and our environmental policy statement, we are striving to ensure that what we buy, use and dispose of and what we do as a business helps, albeit in a small way, to build a fairer, more ethical, socially just and environmentally sustainable world.
